

ALI TAHIR

DATA ENGINEER | QUANTEXA CERTIFIED | AWS CLOUD PRACTITIONER

alitahir_@outlook.com | 07475924326 | <https://www.alitahir.co.uk/> | [linkedin.com/in/alitahir10](https://www.linkedin.com/in/alitahir10)

PROFILE

Data Engineer with hands-on experience delivering large-scale entity resolution and analytics pipelines for a UK government client at Accenture. Quantexa Certified Data Engineer with expertise in Spark-based ETL, data modelling, and record linkage across high-volume datasets. Strong background in distributed processing, data quality optimisation, and building trusted golden records to support scoring and investigative workflows. Comfortable contributing to CI/CD practices, including automated build and test workflows via GitHub Actions.

EXPERIENCE

Accenture, Data Engineer

03/2025 – Present

- Designed and optimised Spark-based ETL pipelines to ingest, cleanse, and model high-volume datasets.
- Built and tuned entity resolution rules, features, and thresholds to improve record matching accuracy.
- Modelled relationships across multi-source data to generate trusted golden profiles for downstream use.
- Improved data quality via deduplication, feature engineering, and match-performance tuning.
- Contributed to CI/CD workflows using GitHub Actions to automate builds and tests for reliable delivery.
- Collaborated with engineers and analysts to translate requirements into scalable data products.

Wilson James, Team Delivery Manager

11/2023 – 02/2025

- Led a 30-person team to deliver consistent service operations, improving efficiency and issue resolution.
- Acted as primary client contact, ensuring SLA adherence and clear stakeholder communication.
- Coordinated daily operations and continuous improvement initiatives.

FootfallCam, IT Support Engineer

07/2021 – 03/2022

- Provided technical support, troubleshooting, and diagnostics across hardware and software environments.
- Maintained support documentation and contributed to a technical knowledge base to improve resolution speed.

EDUCATION

BSc Computer Science, University of Surrey

2019 – 2023

First Class Honours

GCSEs and A Levels, Rosedale College

2012 – 2019

GCSE: 11 A*-B

A-Levels: AAB

TECHNICAL SKILLS

Languages: Scala, Java, Python (Django), SQL, Ruby (Ruby on Rails), JavaScript (React), TypeScript

Big Data: Apache Spark, Quantexa, ETL Pipelines, Batch Processing

Data: Entity Resolution, Record Linkage, Data Quality, Data Modelling

Cloud & DevOps: AWS (IAM/S3/EC2/EMR/Airflow/Lambda/Redshift/Grafana), Git, CI/CD, GitHub Actions

Databases: PostgreSQL, Relational Databases

PROJECTS

Crime-Eye (Crime Analytics Platform)

- Built a Rails app integrating UK police datasets and location-based search.
- Designed geospatial visualisations and statistical dashboards (charts + trend views).
- Implemented backend APIs for crime trend analysis and area risk scoring.
- Deployed with PostgreSQL and cloud-hosted infrastructure.

CERTIFICATIONS

- Quantexa Certified Data Engineer
- AWS Certified Cloud Practitioner
